Two years ago, our office received our first request to provide written materials in a braille format from a new student to the University. Knowing our responsibility to provide high quality text, and our desire to ensure that the choices we made were financially responsible to the University, we set out to locate our new braille provider.

Impact Braille has provided consistent braille services to our office for the past 3 semesters, and we are in the process of finalizing our requests for the fourth and beyond. From the first time that I interacted with Johnnie, I knew that our needs would be met (and then-some), and that we were building a relationship that would ensure our student would receive the materials she needed, in a format that was accessible, in a timeframe that pleased all.

While I felt comfortable at the get-go, my admiration for Johnnie Moultrie and Impact Braille has grown by magnitudes since this process began. When I call last minute because an instructor has made a change to their material, I have never gotten a response *but* "ok, can do!". I am sure that I have put Johnnie in tight spots but he has never let it show.

Without doubt, I can recommend his services to those in need of braille creation/conversion. The quality of work produced by Impact Braille has always exceeded our expectations, and shows a clear desire not only to run a solid business, but also to genuinely improve the lives of those they serve.
